Education

Drexel University
Bachelor of Science in Computer Science
Software Engineering

Philadelphia, PA
Anticipated Graduation: June 2022
Cumulative GPA: 3.89

Skills

Software: Microsoft Excel, PowerPoint, Word
Operating Systems: Microsoft Windows, Apple macOS
Language: Python, Bash, Racket

Security Clearance, United States Department of State, expires 2025

Work Experience

United States Army

Senior Nodal Network Systems Supervisor

Joint Base Lewis-McChord, WA
January 2017 - March 2019

- Led a team responsible for the operation and maintenance of network communications for up to 500 personnel for 700 hours of continuous operation
- Coordinated movement and inventory for \$13 million worth of U.S. Army communications equipment to and from South Korea, Hawaii, and Guam with no loss
- Ensured company was compliant on all communications security requirements by providing quarterly training, maintaining records as the communications security manager for over 30 personnel, and managing the storage and destruction of all materials classified as SECRET

United States Army

IT Specialist

Camp Red Cloud, South Korea
December 2015 - December 2016

- Operated, trouble-shot, and performed maintenance on IP-based networking systems including: Cisco routers and switches, Brocade switches, and Cisco VoIP phones supporting up to 500 personnel
- Maintained computers, routers, switches, firewalls, and other networking components
- Completed biweekly inventories on \$10 million worth of equipment with no losses

Netconnex Computer Cable, LLC

Warehouse Associate

Quakertown, PA
January - March 2015

- Accurately completed warehouse orders by locating product and providing a quality check on the item before the packing department received it
- Created shipping labels for domestic and international orders in a timely manner
- Employed efficient, cost-saving methods while packing items through box-size and product protection optimization
- Regularly organized warehouse supplies to ensure product searching process was quick and accurate
- Carefully inspected shipments after unloading trucks, and signed for incoming deliveries
