## Education

| | |
|---|---|
| Drexel University | Philadelphia, PA |
| Bachelor of Science in Computer Science | Anticipated Graduation: June 2022 |
| Software Engineering | Cumulative GPA: 3.87 |

## Skills

Software: Microsoft Excel, PowerPoint, Word
Operating Systems: Microsoft Windows, Apple macOS
Language: Python, Bash, Racket

Security Clearance, United States Department of State, expires 2025

## Work Experience

**United States Army**                                    Joint Base Lewis-McChord, WA
*IT Specialist*                                                      March 2015 - 2019
- Operated, trouble-shot, and performed maintenance on IP-based networking systems including: Cisco routers and switches, Brocade switches, and Cisco VoIP phones supporting up to 500 personnel
- Maintained computers, routers, switches, firewalls, and other networking components
- Performed weekly maintenance on diesel trucks and generators
- Completed biweekly inventories on $13 million worth of equipment with no losses

**Netconnex Computer Cable, LLC**                                    Quakertown, PA
*Warehouse Associate*                                          January - March 2015
- Accurately completed warehouse orders by locating product and providing a quality check on the item before the packing department received it
- Created shipping labels for domestic and international orders in a timely manner
- Employed efficient, cost-saving methods while packing items through box-size and product protection optimization
- Safely operated a forklift to unload trucks and store pallets
- Regularly organized warehouse supplies to ensure product searching process was quick and accurate
- Carefully inspected shipments after unloading trucks, and signed for incoming deliveries

**Mangar Industries, Inc**                                          New Britain, PA
*Warehouse Associate*                                        June 2011 - August 2014
- Efficiently inspected warehouse outgoing shipments and authorized incoming deliveries
- Assisted shipping departments with daily shipment preparations
- Maintained assigned warehouse through raw material inventory tracking and ensuring supplies were stocked
- Performed vehicle deliveries as needed

## Honors and Awards

Dean's List, Drexel University, Fall 2019 - Present

## Relevant Coursework

| | |
|---|---|
| Introduction to Computer Science | Computing and Informatics Design I, II, III |
| Computer Programming I, II | Mathematical Foundations of Computer Science |
| Introduction to Software Engineering and Development | |

## Activities

Member, Drexel Institute of Electrical & Electronics Engineers, 2020-Present
Member, Drexel Veterans Association, 2019-Present
